BE in Computer Engineering

Email: dhp204600@gmail.com Phone no: +9197732 05176

EDUCATION

LDRP Institute of Technology and Research
CPI: 7.64(Up to 6th Sem)

📅 August 2022 - Present 📍 Gandhinagar, Gujarat

Class 12th: Das Group Education System, Idar
(GHSEB)
Percentage: 75.69%

📅 2022 📍 Sabarkantha, Gujarat

Class 10th: Sharda High School, Vadali
(GSEB)
Percentage: 84.17%

📅 2020 📍 Sabarkantha, Gujarat

SKILLS

Areas of Interest : Data Structure and Algorithms ,DBMS, Operating System, Computer Network, Web Development, Software Development

Programming Languages : C, C++, Python

Tools and Technologies : MySQL, Visual Studio, Google Colab, Github, MERN Stack

INTERESTS

- Sports
- Exploring new technologies

EXPERIENCE

- exploring new technologies

PROJECTS

➤ Remote Team Productivity & Time

Tracker: 📅 May 2025

Tech: React.Js, Node,Js, Express.Js, MangoDB

- Built a full-stack job tracking platform to help users manage remote job applications efficiently.
- Designed intuitive dashboards with filters for status (applied, interviewed, offered, rejected) and priority.
- Implemented secure authentication using JWT and role-based access (admin/user).
- Developed RESTful APIs to handle job CRUD operations, notes, and follow-up reminders.
- Used MongoDB Compass to store user data, job postings, and application history

➤ Animal Husbandary Management System:

📅 March - 2025

Tech: React.Js, Node,Js, Express.Js,MangoDB

- Developed a full-stack web application to manage livestock records, health tracking, feeding schedules, and veterinary visits.
- Implemented user authentication for farmers and vets with secure login and role-based access control.
- Enabled real-time updates and notifications for vaccination, breeding, and health checks.
- Designed a responsive UI using React.js with RESTful API integration built in Node.js.
- Improved record-keeping efficiency and streamlined daily operations for animal care

➤ Blood Bank Management System:

📅 Dec - 2024

Tech: HTML, CSS, Python, SQLite

- Developed a web-based application to streamline blood donation, storage, and inventory management. Enabled users to Register as blood donors and requester
